

COMPLETE FUEL CONTROL FOR YOUR FLEET

eTrans

SMART FUEL SENSOR SYSTEM

Fuel is one of the biggest operational costs in fleet management and also the most vulnerable to loss. **eTrans Smart Fuel Sensor System** gives you complete real time visibility and control over fuel usage, helping you prevent theft, detect inefficiencies and optimize performance.

Eliminate fuel pilferage, reduce operational costs and improve efficiency - all from a single dashboard. Whether you manage trucks, generators, or heavy machinery, our solution ensures transparency and accountability at every level.

Precision. Protection. Profitability.

How It Works:

eTrans fuel level sensor is installed directly into the fuel tank and connected to your GPS tracking system. You can monitor fuel levels, usage patterns, and alerts in real time through a centralized dashboard or mobile app.

eTrans Smart Fuel Sensor System

B E N E F I T S

- **Industry-Grade Accuracy**
Advanced sensing technology ensures precise fuel level tracking
- **Real-Time Alerts**
Instant notifications on fuel filling, theft and abnormal usage
- **End-to-End Visibility**
Monitor fuel data anytime, anywhere
- **Reduced Fuel Costs**
Eliminate wastage and inefficiencies
- **Improved Fleet Productivity**
Better planning through accurate data
- **Enhanced Security**
Protect against fuel theft and misuse
- **Better Profitability**
Optimize operations with actionable insights

K E Y F E A T U R E S

INTELLIGENT MONITORING

- Live tracking of fuel filling, consumption and drainage
- Continuous monitoring via centralized dashboard

THEFT & PILFERAGE PROTECTION

- Detects unauthorized fuel removal instantly
- Reduces fuel losses significantly

HIGH PRECISION SENSORS

- Ensures accurate and reliable fuel level measurement
- Eliminates manual errors and guesswork
- Wired and BLE sensor available

SMART ALERTS & REPORTS

- Custom alerts for anomalies
- Detailed usage reports for analysis & auditing

UNIVERSAL INTEGRATION

- Compatible with trucks, buses, generators and heavy equipment
